

Watershed Sciences Internship Announcement:

Remote Sensing Technician

Corvallis, OR

Closes 8/5/2011

Watershed Sciences is in search of a student for one part-time office internship, who is willing to commit 15-20 hours/week. Hourly wage will be commensurate with education and work experience.

Watershed Sciences, Inc. is an Oregon-based company with offices in both Corvallis and Portland. We specialize in remote sensing, geographic information systems (GIS), image analysis, data processing, and hydrology. We fly a variety of airborne sensors including LiDAR, thermal infrared, and digital multi-spectral cameras.

Remote Sensing and GIS Technician

The responsibilities for this position consist of the processing of LiDAR data products, including assisting in manual review and QA/QC of LiDAR data.

Successful candidate will:

- Have an educational background in geography, environmental science, or earth sciences.
- Have a minimum GPA of 3.0.
- Have a strong background in geo-spatial technology and concepts.
- Be willing to commit 10-20 hours per week to this position.

Benefits of being an intern for Watershed Sciences

- Experience working for a private sector remote sensing firm with a focus on natural resource applications.
- Earn school credit while gaining new and desirable skills.
- Hands on experience working with cutting edge remote sensing technologies.
- Excellent opportunity to build your resume.

- Strong potential to extend internship into summer employment.

Experience with ArcGIS and any CAD software is a plus, but not required.

Scheduling is flexible, and training will be provided. This is a paid internship position (starting at \$12.00/hour) that will require professional-level performance.

If interested, please send a resume, references, and relevant class list to:
